Estimated planting date:

Species	No. required*	Species	No. required*
SHRUBS		TREES	
Acacia buxifolia		Brachychiton populneus	
Acacia dealbata		Casuarina cunninghamiana	
Acacia decora		Eucalyptus aggregata	
Acacia impexa		Eucalyptus albens	
Acacia leucoclada		Eucalyptus blakelyi	
Acacia melanoxylon		Eucalyptus bridgesiana	
Acacia paradoxa		Eucalyptus dives	
Acacia penninervis		Eucalyptus goniacalyx	
Acacia verniciflua		Eucalyptus macrorhyncha	
Acacia vestita		Eucalyptus melliodora	
Banksia marginata		Eucalyptus pauciflora	
Bursaria spinosa		Eucalyptus polyanthemus	
Callistemon sieberi		Eucalyptus stellulata	
Davesia latifolia		Eucalyptus viminalis	
Dodonaea viscosa		GRASSES, SEDGES, GROUND FLORA	
Hardenbergia violaceae		Bulbine bulbosa	
Indigofera australis		Carea appressa	
Leptospermum myrtifolium		Cymbopogon refractus	
WETLAND PLANTS		Dianella revoluta	
<i>Propagated by division – please allow extra time for delivery</i>		Dichopogon strictus	
		Goodenai pinnatifida	
Baumea rubiginosa		Lomandra longifolia	
Eleocharis acuta		Lomandra multifora	
Juncus usitatus		Microlena stipodes	
		Poa labillardierei	
		Themeda australis	

*** For larger orders, multiples of 40 plants are preferred as this suits the size of the racks we use in the nursery and makes assembling your order much easier. Minimum order is 40 plants of mixed species.**

Central Tablelands Landcare Nursery

Central Tablelands Landcare Nursery is located at the Department of Primary Industries Centre, Research Station Drive, Bathurst.

The nursery started growing plants for Landcare projects and contracts in early 2017. The nursery grows a range of trees, shrubs, grasses and ground flora from the endangered Box-Gum Woodlands and high-altitude grassy woodlands. The nursery is run as a not for profit program and supports local projects with the supply of local provenance plants.

The nursery is operated by two part-time staff and with assistance from volunteers from the Landcare community.

Terms and conditions for purchase of plants from Central Tablelands Landcare Nursery

1. All species grown in the Nursery are native to the Bathurst – Blayney – Orange – Cabonne Local Government Areas. Seed is sourced from within this area, wherever possible.
2. The Nursery grows plants mainly on contract and will not always have stock available for “on the day” purchase.
3. If the Nursery has stock in excess of contracts, orders will be taken while existing stock lasts. Availability of surplus stock will be advertised through the Central Tablelands Landcare network.
4. Orders for tube stock to be planted in Autumn-Winter (March – June) should be placed before 31st October of the previous year. This allows time for seed to be sown and plants to be grown out to a suitable size for planting. Some species may require longer than 6 - 7 months to grow to a suitable size.
5. Where possible, species should be ordered in multiples of 40. This is the size of the racks we use in the nursery and assists with assembling your order prior to pick-up.
6. All orders must be collected by the end of June or by a date negotiated with the nursery team. We prefer not to hold plants over winter.
7. The minimum purchase is one tube rack, or 40 plants in total. This can be a mixture of species.
8. Purchases of up to 120 plants (3 racks) must be paid for in full at the time of placement of the order.
9. For purchases over 120 plants (3 racks), a deposit of 50% of the total purchase price must be paid before the order can be confirmed.
10. Central Tablelands Landcare Nursery will not be held responsible for loss or damage to plants if they are not collected by the agreed pick-up date.
11. Collection of plants must be pre-arranged with the Nursery Manager as the nursery is not staffed every day.
12. Central Tablelands Landcare Nursery retains the right to sell plants that are not collected by the agreed date, unless an extension is negotiated with the Nursery Manager.
13. No refund will be given for plants not collected by the due date.
