

## Did you know you own a 1,100 acre farm?

This productive land is an asset of Goulburn Mulwaree Shire.

This Farm, cleverly managed, can turn Goulburn Carbon Neutral.

Growing@Goulburn intends to develop this property into an education, research and food production hub.

Help G@G convince Council to keep this land for agriculture not a housing subdivision.

Share in our vision to make Goulburn a great farming powerhouse again!
