

We had the water tested!

Cadmium Analysis

	mg L ⁻¹
MONGARLOWE DEEP HOLE (The Geiers - Moorale)	0.003
BOBS CREEK	0
FEARNS CREEK	0.001
GEIERS CREEK	0.002
MONGARLOWE WEIR	0.002
POURLAY CREEK Bourke's Crossing - between Mongarlowe Village & Clyde Rd.	0.001
SERGEANTS CREEK Mongarlowe Village at Kay McCarrons	0.001

Samples collected 4+5 Aug 1996

Sample analysed 29 Oct 1996

note: 1) all of these are well below the NHMRC

Guidelines value of 0.005 mg/l

- 2) sampling was carried out in a period of high flow ie maximum chance of high sediment cover
- 3) We could perhaps try another sampling if we get a 'drought' period this summer.

Regards,
Dr Baden Williams.
