Carbon Farming and Dung Beetle Field Days

Together with Landcare NSW, we are hosting industry leading experts to showcase the importance of dung beetles and the development of soil carbon projects.

Presentations from:

- Dr Russ Barrows from Charles Sturt University on economic and environmental benefits of dung beetles
- Kieren Whittock from AgriProve, facilitators on soil carbon projects.

A bush tucker lunch will be provided at the field day, hosted by our Senior Land Services officer for Aboriginal Communities.

**15th February – Emu Logic, 2404 John Renshaw PKY
Tooraweenah NSW 2817**

**16th February – Narromine/Trangie Area, location
depending on dung beetle activity (TBA).**

**17th February – Weddin Area, location depending on
dung beetle activity (TBA).**

RSVP FEBRUARY 4, 2022
