

## Requests for over 200 plants from MLG Nursery

MLG nursery has a usual limit for plant requests of 200 per member per year – simply fill in the online form.

However, more plants can be requested by **also** submitting a **Special Large Project Application** to the MLG committee for approval by emailing it to [mlg\\_nursery@yan.org.au](mailto:mlg_nursery@yan.org.au).

Topics to include in your application are:

- aim of planting
- location of planting, including a map showing the property and its size, and landscape position (ridges, slopes, riparian)
- history of fertiliser (native plants generally do not like fertiliser)
- strategy to protect from stock and/or wildlife (including fencing when needed)
- strategy for planting – who will do it, help that is required
- species being selected to suit the landscape position
- willingness to host a community planting day
- commitment to yearly photo monitoring and survival rate reporting to YAN.

Please email the MLG nursery prior to submitting your application if you would like to discuss your application.
