

Simple steps to better photography using your phone camera

Smartphones have revolutionised photography, making it more accessible to everyone. As Daniel Linnet from Sydney Photographic Workshops explains, "The best camera is the one you have with you." Learn how to capture perfect moments with your smartphone, proving that great photography is all about timing, not equipment.

What you will learn

- Phone photography – fundamentals including setup and handy in built tools.
- Exposure – adjusting like a pro.
- Composition basics – what to look for in a scene.
- Understanding light – where to stand.
- Telling a story – capturing the moment.
- Isolating the subject – using Portrait mode.
- Zooming and lens focal length.
- Frame orientation.
- Panning for panoramas.
